The fact that you are visiting this website is indication that you are going through a very traumatic time in your life. You have been subjected to the humiliation of being arrested and thrown in jail. Added to that humiliation is the accompanying embarrassment of explaining your arrest to your family and friends. With all of this added pressure you are faced with probably the most important decision you have ever made in your life. That decision is what attorney you will hire to defend you.

My job as a Criminal Defense Attorney is not only to ensure that justice is served, but also to vigorously defend you by any means necessary. I am not concerned with whether or not you are guilty or innocent. My concern is to hold the Government accountable for the offense for which they have charged you with. Prosecutors are claiming that you committed a crime; it is my responsibility to put up every roadblock and to search every loophole and legal technicality to get you off.

I have devoted my legal career to defending citizens accused with criminal activity. When a potential client calls me I get excited. I enjoy manipulating the Government; most times the cases they bring against my clients are weak and unsubstantiated. Let me put my passion and legal skills to work for you.
